

Year 11 Technology Product Design Curriculum

Term 1a

Course content: Controlled Assessment project and theory

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 1b

Course content: Controlled Assessment project and theory

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 2a

Course content: Controlled Assessment project and theory

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 2b

Course content: Controlled Assessment project and theory/ Revision

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 3a

Course content: Revision

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 3b

Course content: Course complete

Term 1a

Course content: Bauhaus storage box/Table lamp

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 1b

Course content: Bauhaus storage box/Table lamp

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 2a

Course content: Bauhaus storage box/Table lamp

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 2b

Course content: Controlled Assessment project and theory

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 3a

Course content: Controlled Assessment project and theory

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 3b

Course content: Controlled Assessment project and theory

Assessment: Work is assessed using the assessment objectives outlined in the AQA G.C.S.E. Product Design course.

Term 1a

Course content:

Product Design – Pop Art Clock

Assessment: Work is assessed using the assessment criteria for KS3 Technology

Term 1b

Course content:

Product Design – Pop Art Clock

Assessment: Work is assessed using the assessment criteria for KS3 Technology

Term 2a

Course content:

Product Design – Pop Art Clock

Assessment: Work is assessed using the assessment criteria for KS3 Technology

Term 2b

Course content:

Product Design – Mechanical Toy

Assessment: Work is assessed using the assessment criteria for KS3 Technology

Term 3a

Course content:

Product Design – Mechanical Toy

Assessment: Work is assessed using the assessment criteria for KS3 Technology

Term 3b

Course content:

Product Design – Mechanical Toy

Assessment: Work is assessed using the assessment criteria for KS3 Technology
